

COMPANY PROFILE

OUR MISSION

To ensure the highest level of safety and security and to protect people, the environment, and your company's assets.

EXPERTISE

Explosion-proof safety devices | Since 1963

Smart access control system for wind turbines | Since 2017

PROVEN QUALITY

ISO 9001 : 2015, ATEX-Q, IECEx

MADE IN GERMANY

Development and production of all TIMM devices in Northern Germany

WORLDWIDE USE

> 30 international distributors, > 40 countries

AWARDS

Tank Storage Award 2017 for EUS-2 as "Most invaluable product"

Finalist 2019 in the German competition "Grand Prix for mid-sized companies"

PRODUCTS

EXPLOSION PROTECTION

All ex-proof products are for use in hazardous areas and developed based on our Intelligent Explosion Protection Concept (IEPC)

GROUNDING CONTROL DEVICES

- Protection against electrostatic hazards during loading and unloading of **tank trucks, silo trucks, railway wagons, FIBC, IBC, drums and containers**
- Highest level of safety through **monitored electrostatic grounding**
- **Object detection** for trucks and big bags (FIBC) prevents misuse

TIMM BITE GROUNDING CLAMPS AND CABLES

- **ATEX-compliant** grounding clamps and cables for use in **harsh environments**
- Sharp teeth and strong clamp springs for **firm grip** and **reliable grounding**

OVERFILL PREVENTION CONTROLLER

- Protection against overfilling and electrostatic charges while **Bottom Loading** at fuel distribution terminals
- In line with **VOC Directive 94/63/EC** and **American API RP 1004**
- **Compatibility** with all 5-wire and 2-wire sensors according to **EN 13922**

MARINE GROUNDING SYSTEM

- **Monitored potential equalization** during loading / unloading of tank ships
- Very low-ohmic measuring line, **specifically for maritime application**
- In accordance with all **Best Practice recommendations**

RFID CARD READER

- Access control and identification in **hazardous areas**
- Compatible with **MIFARE Classic RFID cards**

RENEWABLE ENERGY

INTELLILOCK

- Smart and vandal-proof access control **to wind turbines**
- Fully **digitalized**, PIN-based **access control process** with real time monitoring
- **Personalized** and traceable access permits
